Prof. Letizia Di Bella DST- Sapienza University	Mr. Marco Albano	Scanning Electron Microscope FEI Quanta 400 equipped with a Microanalysis system EDAX Genesis	Observation of the surface morphology of various materials	Micropaleontology – compositional and ultrastructural analysis of microfossils. Mineralogy – structural, morphological and chemical analysis of minerals. Cultural Heritage – archeological artifacts (potteries and glasses) Environment – analysis of dispersed aerosols and asbestos of natural and anthropogenic origin. Botany – morphology of vegetables (algae, bacteria and fungi)	Coating with very thin films (few nm, depending on the material to be analyzed) of Au or C	<ul style="list-style-type: none"> • Internal services (DST Sapienza researchers): 60 no VAT (9.00 - 13.00 a.m.) - 100 no VAT (9.00 - 16.00 p.m.) • Sapienza University researchers: 90 no VAT (9.00 - 13.00 a.m.) - 140 no VAT (9.00 - 16.00 p.m.) • Public Research Institutions and Universities service: 130 + VAT (9.00 - 13.00 a.m.) - 210 + VAT (9.00 - 16.00 p.m.) • Third-party service: 100 + VAT/h
